

ZAIDYN Field Incentive Reports R11.1

Staging: July 27, 2024

In this release, ZAIDYN Field Incentive Reports introduces new features which enhance the report review process for Administrators and extends locale and currency support for the UK region.

Objective

Enhance the report review process by implementing a customizable, **template-based workflow** that allows Admins to **automate the review and publishing tasks**. Also, allow direct participation of **HQ** and **Supervisors** in the review process through the ZFIR application for quicker approval cycles.

Enhance the reporting system to **support localization** for the UK region.

Impact

→ **Accelerate the entire report management process** by minimizing manual tasks, consistently meet deadlines and deliver high-quality reports with greater efficiency.

→ **Improve user experience** and global locale support by ensuring that all reports are tailored to the specific needs and standards of UK-based users.
